

Mathematics Mastery

Mastery package

The Mastery package gives you online access via the MyMastery digital learning platform to everything you need to deliver the Mathematics Mastery curriculum, including solutions for blended learning, curriculum resources and bite-sized professional development.

Teaching & Planning

- Detailed curriculum maps for each year group
- Yearly planners and programmes of study
- Summary of key representations per year group
- Teaching overviews, split into accessible 'staging posts'
- Unit narratives - overviews of key content and learning
- On-demand unit video tutorials
- Guidance on adapting and differentiating materials for learners

Lesson Resources

- Powerpoint slides for each lesson (also in SMART and Activ)
- Complete lesson guides for each lesson
- Printable worksheets
- Big Picture discussion prompts
- Aligned home learning video lessons

Assessment & Intervention

An integrated summative and formative assessment model including:

- Key construct documents
- Maths meetings
- Catch-up materials
- Termly assessments
- Intervention resources
- End of year assessments for Years 1, 3, 4, 5

Professional Development

A wide range of professional development modules online and on demand, organised by staging post, including induction training, curriculum-specific PD, a selection of webinars to develop subject-specific pedagogy.

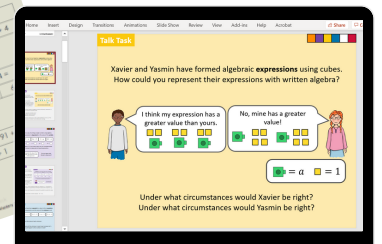

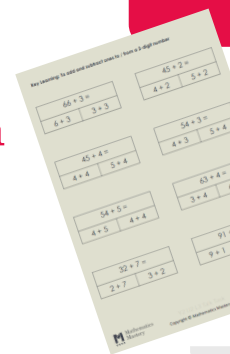

With Ark Curriculum Plus you'll get:

A well-sequenced and interlinked curriculum

A full suite of classroom planning, delivery, assessment and intervention resources

Integrated training and professional development
